Subject: Letter of Interest for Python Backend Developer Opportunity

Dear Hiring Manager,

I am writing to express my interest in potential **Python Backend Developer** opportunities at your organization.

I am currently pursuing a B.Tech in Computer Engineering at Swarnim University and have completed my Diploma in Computer Engineering from Arpit Institute of Technology. I have also completed a Python Backend Developer course from TOPS Technologies.

My technical skills include Python, Django, Django REST Framework, REST APIs, MySQL, and Git/GitHub. I have developed backend projects that have helped me gain practical experience in API development, database management, authentication, and backend application development.

As a fresher, I am eager to begin my professional career in backend development and contribute to real-world projects while learning from an experienced team.

I would be grateful if you could consider my profile for any suitable **Python Backend Developer, Backend Developer, or Python Developer Intern** opportunity.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Parth Navapariya
