

RECOMMENDATION LETTER

Date: 1-10-2026

To Whom It May Concern,

I am pleased to recommend **Parth Navapariya**, a Computer Engineering student with a strong interest in Python Backend Development.

During his academic and technical training, Parth has demonstrated a good understanding of Python, Django, Django REST Framework, REST APIs, and MySQL. He has also worked on backend development projects, applying his knowledge to practical applications.

Parth is a sincere, responsible, and hardworking individual. He shows willingness to learn new technologies, accepts feedback positively, and makes consistent efforts to improve his technical skills.

Based on his technical knowledge, learning attitude, and dedication, I believe Parth would be a suitable candidate for an entry-level Python Backend Developer or internship opportunity.

I am happy to recommend him for suitable professional opportunities.

Sincerely,

[Recommender's Name]
