

PARTH NAVAPARIYA

Python Backend Developer | Django Developer | MySQL | Backend Development

Ahmadabad, Gujarat | 9574155158 | parthnavapariya8@gmail.com | www.linkedin.com/in/parth-navapariya-ba92992b4 | <https://github.com/ParthNavapariya> | <https://parth-portfolio-red.vercel.app/>

PROFESSIONAL SUMMARY

Results-driven Python Backend Developer and AI enthusiast with hands-on knowledge of Python, Django, Django REST Framework, and MySQL, along with the ability to work with AI technologies. Strong understanding of OOP, CRUD operations, REST APIs, authentication, database management, and backend development. Capable of developing Python backend applications and integrating AI technologies to build AI-powered backend solutions and real-world web applications. Interested in leveraging both Python backend development and AI technologies to create practical and innovative software solutions. Seeking a Python Backend Developer / Django Developer Internship to apply my skills and gain real-world industry experience.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, SQL
- **Backend Frameworks:** Django, REST API
- **Frontend Technologies:** HTML5, CSS3, Tailwind-CSS
- **Databases & Caching:** PostgreSQL, MySQL,
- **Tools:** Git, GitHub, Postman, VS Code, MySQL Workbench, Vercel, Netlify
- **AI Tools:** Antigravity, Cursor AI, Google Gemini, GitHub Copilot, Claude, ChatGPT

PROJECTS

Food Ordering REST API – Backend Management System | Python, Django, Django REST Framework /

GITHUB: <https://github.com/ParthNavapariya/django-food-ordering-api> |

LIVE: <https://parth07.pythonanywhere.com/api/>

- Developed a RESTful food ordering backend using Python, Django, and Django REST Framework.
- Implemented user registration, token authentication, protected APIs, and permission-based access control.
- Built CRUD operations for Categories, Menu Items, Orders, and Order Items using Django models and REST API endpoints.
- Implemented database relationships between users, categories, menu items, orders, and order items.
- Added search, filtering, pagination, serializer validation, and custom error handling for API requests.
- Integrated Django Admin for efficient management of users, categories, menu items, and orders.
- Deployed the backend API on PythonAnywhere and tested the live REST API endpoints.

Shop Kart – E-commerce Backend Management System | Python |

GITHUB: <https://github.com/ParthNavapariya/SHOPKART>

- Developed a console-based e-commerce backend application using Python
- Implemented user authentication, product search, cart management, checkout, and order processing functionality.
- Built CRUD operations for products, carts, and user orders using python dictionaries and modular functions
- Added product sorting and filtering features based on price and customer rating
- Implanted billing calculations and order confirmation workflow for order management.
- Organized the **application** using reusable functions and structured program flow for better maintainability

Dhapu Organic Website | Html | Css3 | JavaScript | Netlify |

GITHUB: <https://github.com/ParthNavapariya/Dhapu-Organics---Factory-Direct-Organic-Fertilizers> /

LIVE: <https://dhapu-organicsssssss.netlify.app/>

- Developed a responsive Organic product showcase website using html5, css3 and JavaScript.
- Designed a clean and Morden user interface with semantic html and structured layouts.
- Implemented fully responsive pages for mobile, tablet, and desktop devices.
- Deployed the website Netlify for live hosting and accessibility.
- Managed source code and version control using github.

TRAINING & CERTIFICATION

Backend Development with Python – Training |

<https://drive.google.com/drive/folders/1AwwGxPiAjt9qtnHvxshGudrvWSnwaXiB?usp=sharing>

TOPS Technologies, Ahmedabad | [Feb 2026– SEP 2026]

- Currently perusing practical training in Python Backend Development, Django, and MySQL
- Hands-on experience with CRUD operation, Rest Apis, Database integration, and Backend development.
- Developing practical projects using Python, Django, and MySQL.
- Strong understanding of OOP, Exception Handling, Module & packages, and Database Management
- Working with Git, GitHub, VS Code, MySQL workbench, antigravity

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering

Swarnim Startup and Innovation University, Gandhinagar, Gujarat [Graduation Year, 2025 – running]

- **CGPA / Percentage: currently pursuing**

Diploma in Computer Engineering

Arpit Institute of Technology, Gujarat Technological University, Rajkot, Gujarat [2022 - 2025]

- **CGPA / Percentage: 7.94**
